LET YOUR STOMACH HAVE ITS OWN WAY.

WAY.

Do Net Try to Drive and Force it to Work When it is Not Abie, or You Will Suffer All the More.
You cannot treat your stomach as some men treat a balky horse; force, drive or even starve it into doing work at which it rebeis. The stomach is a patient and faithful servant and will stand much abuse and ill treatment before it "balks," but when it deds you had beeter go slow with it and not attempt to make it work. Some people have the mistaken idea that they can make their stomachs work by starving themselves. They might cure the stomach that way, but it would take so long that they would have no use for a stomach when they got through. The sensible way out of the difficulty is to let the stomach rest if it wants to and employ a substitute to do its work.

Stunrt's Dyspepsia Tablets will do the work of your stomach roy you and digest your food just as your stomach used to when it was well. You can prove this by putting your food in a glass jar with one of the tablets and sufficient water and you will see the food digested in just the same time as the disestive fluids of the your mind that your some after one in great and awhat you worked after one of Stunrt's Dyspepsia Tablets after o

weight in your stomach, in fact, you will forget all about having a stomach just as you did when you were a healthy boy or gir!

Stuart's Dyspepsia Tablets act in a natural way because they contain only the natural elements of the gastric juices and other digestive fluids of the stomach. It makes no difference what condition the stomach is in, they go right shead of their own accord and do their work. They know their business and surrounding conditions de not influence them in the least. They thus relieve the week stomach of all its burdens and give it its much needed rest and permit it to become strong and healthy.

Stuart's Dyspepsia Tablets are for sale by all druggists at 50 cents a box. They are so well known and their popularity is so great that a druggist would as soon inhink of being out of alcohol or quinine. In fact, physicians are prescribing them all over the land and if your own dector is real honest with you, he will tell you frankly that there is nothing on earth so good for dyspepsia as Stuart's Dyspepsia
